Quality policy

Management and all employees are responsible for, based on customers and other stakeholders' requirements and expectations, continuously improving our businesses and relationships now and forwards. We believe that all our employees have the ability to handle the situations that arise in our customer relationships in a business and quality manner.

We always want to meet customers' needs for well-executed jobs within the agreed time. That is the basis of our quality goals. Everyone working for Rope Access Sverige AB has a responsibility to follow our principles and to understand that quality and safety are our keywords in all work. We will provide services of the highest possible quality and safety. We do this by:

- Continuously develop staff skills and make use of the knowledge, experience and dedication that exist within the company.
- Have a clear agreement with the customer, put the customer in focus and help clarify the needs
- As a minimum, always comply with laws, regulations, norms and contract requirements.
- Take overall responsibility for our work and always have a quality thinking in our actions.

We place high demands on ourselves and our suppliers, subcontractors, customers and other partners. Through cooperation with all parties involved, we are preventing quality deficiencies and finding smart solutions that meet the needs.
